

TECHNICAL REPORT

Article name: NEWFIT

Description

Tile based on vulcanized styrene-butadiene rubber and reinforced with mineral fillers.

Manufactured with two layers. The top surface is coloured, resistant to abrasion and indentation. The lower layer has a good absorption property. Especially indicated for cardio rooms, free weights and spinning rooms.

Technical properties:

	Standart	Unit	Typical value
Size:		cm	100x100
Thickness:		mm	8
Hardness:	UNE 53130	°ShA	75
Density	UNE 53526	g/cc	1,30
Abrasion loss	UNE 53527(10N)	mm ³	300
Tensile Strenght	UNE 53510	kg/cm ²	100
Elongation	UNE 53510	%	500
Amortiguation	UNE41958IN:2000	%	11

All the above are aproximate values
